INTRODUCTION

The *CAMLS Union List of Periodical Holdings*, 1997 edition, identifies the periodical holdings of 72 libraries in the Greater Cleveland area. This expanded edition contains the holdings of seventeen libraries not listed in the 1990 edition. The list includes approximately 45,155 titles with over 101,450 holdings statements from 17 academic, 31 public, 19 special, and 5 school libraries plus the CAMLS office collection.

The *CAMLS Union List of Periodical Holdings* serves as a valuable resource tool, providing access to a wealth of varied periodical collections in the greater Cleveland metropolitan area. It facilitates resource sharing on a broader scale than ever before possible.

The Cleveland Public Library was responsible for bibliographic verification of data supplied by the participating libraries. Titles were verified in the Union List of Serials, New Serials Titles or on OCLC. The few titles which were not located in one of these sources were verified using photocopied title pages submitted by the holding library.

Inquiries about interlibrary loan or photocopies should be referred directly to the holding library. Addresses and telephone numbers of participating libraries appear on pages vii to xi. Hours of operation for participating libraries can be found in the Directory of CAMLS Libraries.

Copies of this publication are available, at cost, from the Cleveland Area Metropolitan Library System, 20600 Chagrin Blvd., Suite 500, Shaker Heights, OH 44122.

ACKNOWLEDGEMENTS

Any project of this magnitude is made possible only with the support of the administration of the participating libraries and the untiring efforts of many dedicated people. A special note of appreciation is due to the following:

Cleveland Public Library for its continued assistance and support, particularly Donald Tipka; Margaret Shen and Lynne Okonek and the staffs of Acquisitions and Catalog Departments who worked longer hours for many years to complete the updating of the Union List on schedule; and to Robert Carterette and Automation Services who produced the computer tape;

Loraine Macaskill, for updating the Union List this past year, and Debbie Huberman, who proofread the computer printout and made the necessary changes to the Union List;

Staff of the participating libraries who contributed many hundreds of hours providing detailed, accurate and updated periodical holdings information;

Millie Fry, Assistant Director, for bringing to completion this complex and major project for the Cleveland Area Metropolitan Library System and its members with perseverance, patience, tact, and a continued commitment to maintaining the high standards originally set by the Cleveland Public Library under the leadership of Dr. Ervin Gaines.

HOW TO USE THIS LIST

SCOPE

For the purposes of this list, a periodical is defined as a serial publication appearing or intending to appear at regular or stated intervals, twice a year or more frequently. Each issue consists of separate articles, stories, news items or other writings. The CAMLS Union List of Periodical Holdings includes journals, newspapers, indices, abstracts, and titles which come out more frequently than annually but cumulate into annual volumes (e.g., Readers Guide to Periodical Literature). Excluded are annual reports, almanacs, directories, yearbooks and annuals, monographic series, business and legal loose-leaf services and numbered series.

ENTRY ARRANGEMENT

This list is arranged alphabetically by main entry, either title or corporate author. Successive forms of entry have been used for all titles entered into the CAMLS Union List of Periodical Holdings. To ascertain the availability of any title, it is necessary to search both title and corporate author. Parenthetical information following a title is used liberally to explain acronyms and ambiguous titles. For clarity, cross references are also used. Entries for publications in languages other than English are entered in the language of publication.

FILING

Numerical titles file at the beginning of the list. Acronyms file first in each section. Initial articles in both English and foreign languages are ignored for filing purposes. Diacritical marks have not been used.
